

About Us

The Original Metal Treatment

Muscle Products Corp., creator of the **"Original" Metal Treatment MT-10®**, embarked on its journey in 1985 with a singular mission: to **tackle lubrication challenges** head-on. Our collaboration with top-tier manufacturers of high-quality lubricant additives enabled us to achieve this goal. By addressing lubrication and fuel issues, we've unlocked several benefits for our valued customers:

- **More Effective Lubrication:** Our products optimize equipment performance.
- **Optimal Equipment Operation:** Reduced downtime and enhanced efficiency.
- **Cost Savings:** Lower maintenance and energy costs.
- **Extended Equipment Lifespan:** Ensuring equipment longevity.
- **For Industrial Users**
- We understand that **profitability matters**. Our commitment is to keep your equipment running and running smoothly, allowing you to focus on managing your business effectively.
- **For Consumers**
We're all about **stretching your dollar!** Whether it's safeguarding your home, small engines, or vehicles, our products deliver value.

Our Roots

Muscle Products Corp. traces its beginnings to a humble two-stall garage in Butler, Pennsylvania, founded by Richard G. Fennell and his wife, Carol. Over time, we expanded through independent distributors across the United States and continued globally. When faced with acquisition by an outsider, Sharon Murphy-Dittrich chose a different path—one that prioritized employees and distributors. In 2001, she purchased the company, leading to further growth and our current location in Jackson Center, Pennsylvania.

Our Gratitude

Our unwavering commitment to product quality, performance, and exceptional customer service has earned us a loyal customer base. We cater to a niche market that recognizes the importance of meticulous equipment care, resulting in fewer non-routine maintenance hassles and substantial cost savings.

Thank you for your trust!
